Dated the 28th May, 2010.

J. K. KOECH,  
for Director-General.
NOTICE is given that pursuant to the provisions of section 19 (5) of the Coffee Act, 2001, the Coffee Board of Kenya has published the list of applicants for the grant of licences to various persons who wish to provide services in the coffee industry for the year 2009/2010.

The purpose of the grant of the licences is to enable the applicants to provide services as indicated against the kinds of licences applied for. Since the grant of the licences may affect the coffee growers within the country, such person who may be affected by the grant of the licences to the applicants may raise objections.

Any person or body of persons desirous of making any representations on or objections to any of the grant of such licences as aforesaid must do so by letter addressed to the Managing Director, Coffee Board of Kenya, Coffee Plaza, 10th Floor, Haile Selassie Avenue, P.O. Box 30566 - 00100, Nairobi.

The representations and or objections to be lodged with the Board should be lodged within fourteen (14) days next following the date of the notice in the Kenya Gazette.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED CO-GENERATION POWER PLANT L.R.NO. SOUTH KABRAS/SHAMBERERE/2096, KAKAMEGA NORTH DISTRICT
INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed construction of Co-generation power plant.

The proposed project will involve installation of a Power generation plant at West Kenya Sugar Company. The proposed power generating plant will be located within West Kenya Sugar Company Limited premises which is located in Kabras Division of Kakamega North District about 2½ kilometers off Kakamega–Kaburengo Highway on L.R. No. South/Kabras/Shamberere/2096.

The project anticipates the following impacts and mitigation measures:

**Possible Impacts**
- Disturbance of soil structure
- Dust pollution
- Noise pollution and vibrations

**Mitigation Measures**
- Excavations at the proposed site should be controlled such that the land that is not required for the project is left intact.
- Soil erosion prevention measures should be put in place during the entire process.
- Sprinkle the site with water to reduce dust and provide dust masks to the workforce.
- Adherence to machine’s manual specifications and use of modern technology machines.

The project anticipates the following impacts and mitigation measures:

- **Air pollution through dust and gaseous emissions**: Proper disposal of excavated loose soil.

- **Prohibit idling of vehicles at site during construction.**

- **Water should be sprayed during the construction phase of excavated areas.**

- **Regular maintenance of construction plant and equipment.**

- **Enclosing the site.**

**Noise pollution**

- **The measures to reduce noise pollution should include.**

- **Construction activities to be restricted to daytime.**

- **Workers in the vicinity of or involved in high level noise to wear respective safety and protective gear i.e. earplugs and earmuffs.**

- **Low noise selection of machinery.**

**Oil pollution**

- **Proper storage, handling and disposal of new oil and used oil and related wastes.**

- **Maintain plant and equipment to avoid leaks.**

- **Maintenance of construction vehicles should be carried out in the contractors yard (off the site).**

- **Provide oil interceptors along the drains leading from car wash, service bays, oil storage areas and dispensing pump.**

- **Maintain plant and equipment to avoid leaks.**

**Fire out breaks**

- **Install fire-fighting equipment as provided by local authority fire department.**

- **Sensitize the residents on fire risks i.e. conduct regular fire drills.**

- **Adapt effective emergency response plan.**

- **Provide emergency telephone numbers at strategic points.**

INVITATION OF PUBLIC COMMENTS 
PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed Jalaram Academy Building.

The proposed project will consist of two storey block of 16 classrooms fully equipped with science rooms, IT rooms, and a library. A one storey administrative block and a multi-purpose hall, and a school manager’s quarters complete with a servant quarter.

The project site is in the locality of New Loresho, Kitisuru location in the administrative division of Westlands in Nairobi on Plot L.R. No. 21088/40 New Loresho.

The project site is in the locality of New Loresho, Kitisuru location in the administrative division of Westlands in Nairobi on Plot L.R. No. 21088/40 New Loresho.

The project anticipates the following impacts and mitigation measures:

**Potential Impact**  
**Mitigation Measures**

**Biodiversity and vegetation loss**  
- Do not site project in environmentally sensitive area
- Clear vegetation only when necessary
- Comply with land use plans
- Resurface and re-vegetate exposed areas.

**Soil erosion**  
- Confine excavation of the site to the sections upon which construction will take place.
- Apply soil erosion control measures such as levelling of the project site to reduce run-off velocity and increase infiltration of storm water into the soil.
- Take necessary precautions to control soil erosion during periods of heavy rains.
- Hold excavated earth away from the existing drainage channels.
- Carry out landscaping.

**Hydrology and Drainage**  
- Provide appropriate drainage structures
- Keep natural water channels free from obstruction.
- Channel all the sanitary effluent into a public sewerage system or an appropriate effluent treatment facility.

**Waste generation**  
- Use earth from excavated site to as land fill in open pits and or other excavated sites.
- Adopt appropriate waste management practices including reduction, re-use, recycle, segregation, and pre-treatment.
- Contract a licensed waste handler.
- Develop appropriate and adequate waste collection measures and facilities.
- Maintain waste disposal records.
- Manage materials responsibly.
- Develop clean up plans for wastes and spills.

**Potential Impact**  
**Mitigation Measures**

- Use some of the generated waste such as unused bricks and gravel to rehabilitate
- Use some of the generated waste such as unused bricks and gravel to rehabilitate
- Use some of the generated waste such as unused bricks and gravel to rehabilitate
- Use some of the generated waste such as unused bricks and gravel to rehabilitate

**Health and Safety Concerns**  
- Provide appropriate PPEs.
- Maintain updated fire fighting and detecting infrastructure.
- Secure the construction area from unauthorized persons.
- Service and maintain machinery and vehicles.
- Switch off machines when not in use.

**Noise pollution**  
- Service machines to produce less noise.
- Workers to wear PPEs.
- Switch off machines not in use.
- Fence off the construction area from unauthorized persons.

**Air emissions**  
- Provide adequate security of the institution.
- Form a Health and Safety Committee.
- Enhance a health and safety policy and emergency response procedures.
- Conduct regular fire drills, fire training.
- Provide adequate signage to communicate safety concerns to pupils, staff, and visitors.
- Control traffic in the academy and set a safe speed limit fro vehicles entering the academy.
- Provide appropriate PPEs to the staff.
- Conduct regular medical examination of the employees.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT  
FOR THE PROPOSED LODGE AT NAISHI, RARE AREA,  
NAKURU DISTRICT ON L.R. NO. NAKURU/RARE/NAISHI/1271  

**INVITATION OF PUBLIC COMMENTS**  

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed tourist lodge.

The proposed project is an eight (80) rooms tourist lodge, with approximately 160 guest capacity. The project will consist of guest rooms, staff quarters, administration block, swimming pools, gym, water storage tanks, store rooms, kitchen, waste management systems, parking, security office, and conference halls.

The proposed 28 hectares piece of land is located in Naishi area of Rare, larger Nakuru District.

The project anticipates the following impacts and mitigation measures:

biodiversity
- Revise work plans, management plans and strategies annually.
- Ensure alien plant/wildlife species are not introduced in the area.
- Use wildlife – friendly fences such as live fences around the facility, but not around the designate area.

Liquid waste management
- Maintain septic tank, dispose of sludge using NEMA licensed companies.
- Ensure manhole lid is closed always.
- Periodic emptying of the septic tank to designated waste site using approved vehicles.
- Conduct careful analysis of soils and subsurface geology and incorporate correct placement and leach field design into planning and construction specifications to prevent water contamination.

Solid waste management
- Develop plans for disposal of solid waste and recycling of wet wastes (organics), paper, metal, and plastics.
- Require all visitors and tour operators to “bag and remove” all solid waste from the lodge, where feasible, employ a “check-in, checkout” system for all food consumed by visitors.
- Minimize incineration, and locate incinerators at least away form visitors and animal populations.
- Include design specifications that reduce exposure of solid waste to potential disease vectors, e.g. insects, birds, rodents and other mammals, by requiring screening or regular covering.

Water wastage
- Estimate water demand for this eco-lodge
- Schedule inspection to ensure that water supply and water use rates are as predicted and that water supply technology is being used effectively.
- Select water-conserving and harvesting technologies.
- Monitor water supply to ensure that proper health practices are observed.

Use of Non Renewable Energy
- Emphasize use of solar power.
- Restricted use of generator
- Develop and implement energy conservation plans.

Flora and Fauna Disturbances
- Design to use local materials as much as possible, without depleting available resources or harming the environment.
- Have detailed mitigation strategies to avoid adverse impacts on biodiversity

Possible impacts
- Use a multidisciplinary team – e.g hydrologist, geotechnical engineer, soil scientists, ecologist, tourism specialist – to determine the nature of proposed infrastructure and potential site locations
- Use a multidisciplinary team – e.g hydrologist, geotechnical engineer, soil scientists, ecologist, tourism specialist – to determine the nature of proposed infrastructure and potential site locations

Mitigation measures
- Develop mitigation plan to reduce speeding
- Minimize or prevent human/animal interactions
- There shall be no labour camp on project site to prevent the spread of HIV/AIDS.
- Provide initial instruction and periodic educational follow-up with construction workers and communities on HIV/AIDS.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED LUCKY SUMMER ESTATE SEWERAGE SYSTEM

INVITATION OF PUBLIC COMMENTS

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed construction of the sewerage system.

The proposed project will involve construction sewerage system and it will include the following activities; Digging up sewer trenches with the help of a shovel loader, Man-holes constructions and cover fittings, Trench leveling and pipe-laying, Provision of access and maintenance points, Testing and back-flows corrections, Provision of solid waste interceptor grates at individual connection points.

The proposed Lucky Summer Sewerage plan is expected to cover the entire Lucky Summer area. Lucky summer estate is located off the main Outering Road stretching down form the river towards the airport north road (leading on the Jomo Kenyatta International Airport).
The project anticipates the following impacts and mitigation measures:

Possible impacts Mitigation measures

Changes in hydrology

- Installation of cascades and drainage structures, so as to break the impact of water flow in the drains (causing floods)
- Proper design and maintenance of drainage structures to ensure efficiency,
- Provision of gratings to the drainage channels,
- The intended design should be done in respect to peak run-off volumes, with due regard being made for seasons of high rainfall intensity.

Soil erosion and siltation

- Proper terracing and landscaping of the disturbed soil should be done following the construction work so as to enhance compaction of the loose soil
- Silt-traps should be installed where necessary so as to prevent sediments from entering the River Ngong, where affected.
- Excavation activities should be managed accordingly, so as to control activities during the rainy conditions, and so should earthworks.
- Planting of sediment-binding grasses and other appropriate vegetation types on the disturbed soil.
- Protection of steep cutting with appropriate reinforcement, including use of gabions and assorted soil erosion control structures.
- Woodlots should be encouraged in the catchment areas.
- De-silting of silt traps should be done regularly.
- Control speed and operation of construction vehicles,
- Water should be sprayed during the construction phase of excavated areas,
- Regular maintenance of construction plant and equipment,
- Engage sensitive construction workers

Air pollution

- Limitation of the amount of fats, greases and assorted debris which may cause blockage in the sewerage collection system,
- Provision of adequate operation and maintenance of equipment and facilities,
- Maintenance of a routine preventive operation and check-up of the activities on site by both the staff and contractors.
- Proper installation, inspection and testing of new rehabilitated sewers,
- Implementation of the general and specific prohibitions of the pre-treatment program under EMCA, 1999,
- Maintenance of an un-to-date map of the collection system, outlining all gravity line segments and manholes, storm water conveyance facilities and valves,
- Establishment of a program to assess the current capacity of the collection system owned by the Lucky Summer Welfare Association.

Possible impacts Mitigation measures

Fouling and odors from waste water treatment works

- The select un-sewered areas in the Lucky Summer region will be required to install approved septic tanks and soak pits

Dust emission

- Use of predetermined tracks should be encouraged, especially during the construction phase.
- All active construction areas should be wetted as and when necessary to contain dust,
- Staff training and role-allocation should be undertaken to ensure trained/responsible personnel are on the duty roaster,
- Erosion agents, such as water, should be channelled to predetermined areas to ensure management of erosion,
- Disturbed areas should be rehabilitated,
- The number of motorized vehicles on site should be minimized,
- When working on loose soils or slopes, scour checks should be carried out.
- Paving or application of water or even (non-toxic) soil stabilizers when necessary on all unpaved access roads, parking areas and/or staging areas at the construction site should be done.

Noise pollution

- Sensitize the drivers of construction machinery on effects of noise, whilst limiting pickup trucks and other small equipment to a minimal idling time,
- Maintain plant equipment,
- Construction activities to be restricted to daytime,
- Workers in the vicinity of high level noise to wear the provided safety and protective gear,
- Portable barriers should be installed in a bid to shield compressors and other small stationary equipment where necessary, and also around site boundaries to provide some buffer against noise propagation,
- Labour-based construction methodologies ought to be considered for employment in the sewerage project

Road safety

- Ensure speed limits for construction vehicles especially along roads leading to the site.
- Provide billboards at the sites/entrance to notify motorists about the development.
- Ensure speed solid waste disposal and collection facilities,
- Operation and maintenance manuals for all system components should be provided,
- Ensure effective waste water management,
- Design of sewerage system should be as provided in the plans,
- Sensitize residents on environmental management,
- Provision of personal protective equipment (PPE), to both workers and site visitors,
- Safety education and training shall be emphasized
- Adherence of safety procedures shall be enforced and a contingency plan drafted for accident response,
- Speed of vehicles on site shall be governed as appropriate, and these should be adequately serviced/maintained,

Possible impacts Mitigation measures

Occupational health and safety

- The amount of charge used while blasting shall be controlled/regulated,
The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED DEVELOPMENT OF A PETROL STATION ON KISII MUNICIPALITY BLOCK 3/13, KISII TOWN

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority (NEMA) has received an environmental impact assessment study report for the proposed development of a petrol station.

The proposed project development will comprise of a petrol station with the following facilities:

- 5 dispensing pumps
- 5 underground storage tanks
- A canopy
- Carwash
- Service bay
- Office block (lubricants shop, reception, clerk’s office, manager’s office and toilets)

The proposed project is located on Proposed Petrol Station on Kisii Municipality Block 3/13, Kisii Town.

The project anticipates the following impacts and mitigation measures:

**Possible impacts**

<table>
<thead>
<tr>
<th>Hydrology and drainage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Construction of proper drainage</td>
</tr>
<tr>
<td>Prevention of pollution during construction.</td>
</tr>
</tbody>
</table>

**Possible impacts**

<table>
<thead>
<tr>
<th>Flora and Fauna</th>
</tr>
</thead>
<tbody>
<tr>
<td>Avoid clearing areas that will not be affected by the project</td>
</tr>
<tr>
<td>Choice of indigenous trees to maintain local plant diversity.</td>
</tr>
</tbody>
</table>

**Noise pollution.**

- Provision of ear muffs to construction workers exposed to high noise levels.

**Construction during day time.**

- Full compliance with noise and excessive vibrations pollution (control) regulations, 2009

**Health and safety**

- Use of appropriate PPEs by construction workers
- After commissioning of the project, the management should ensure all health and safety requirements for workplaces e.g. fire exits, fire extinguishers, e.t.c. are installed
- Staff training of occupational health and safety
- Routine medical check-ups
- Risk analysis of all activities
- Formulation of an emergency response plan
- Provision of first aid facilities on site.

**Dust /air quality**

- Water sprinkling of driveways to reduce dust emission during construction
- Routine maintenance of vehicles, plant and other machinery to minimize emission of NOx and Sox from vehicle exhaust systems

**Waste management**

- Waste reduction during construction
- Recovery and re-use of wastes
- Provision of sanitary facilities
- Regular inspection and maintenance of waste disposal system
- Fit hoses with quick-acting leak-proof cock or improved nozzle to minimize spillage of fuel
- Construction of proper and efficient drainage system including an oil interceptor

**Traffic flow**

- Prohibit parking of construction vehicles along the road
- Provide separate vehicle entry and exits to facilitate entry and exits to facilitate smooth traffic flow
- Erect sign post at least 150m from the station to warm motorists

**Regulatory compliance**

- Obtain all necessary permits and licenses prior to commencement of operations

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839–00200, Nairobi.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED DEVELOPMENT OF A PETROL SERVICE STATION ON L.R. NO. RUIRU/MUGUTHA BLOCK 1/T.564, ALONG THIKA ROAD, RUIRU TOWNSHIP, THIKA DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed development of a petrol station.

The proposed project entails the development of a petrol station which will include a filling area, service bay and tyre centre. The project is located on L.R. No. Ruiru/ Mugutha Block 1/T.564.

The project anticipates the following impacts and mitigation measures:

**Possible Impacts**

**Public health and occupational safety**
- Ensure proper solid waste disposal and collection facilities
- Ensure effective wastewater management
- Design of sewerage system should be as provided in the plans and as per MOH guidelines
- Provide First Aid kits on the site
- Sensitize residents/ workers on environmental management
- Ensure there is no poding to eliminate breeding of mosquitoes during construction
- Workers should be trained on occupational health and safety and First Aid administration
- Train staff on petroleum product handling
- Sensitize workers on HIV and AIDS.

**Fire safety training/ Emergency response procedures (ERPs)**
- To enhance health and safety preparedness among stakeholders
- Ensure fire equipment is in good working condition
- Put up emergency response contacts
- Put up ERP notification instructions
- Put up simple instructions on how to handle fires, product spills, LPG incidents, armed robbery and product contaminations

**Road safety**
- Enforce speed limits for construction vehicles especially along road links leading to the site
- Provide billboards at the site / entrance to notify motorists about the development
- Ensure entry and exits are done as per Road Engineer approval.

**Possible Impacts**

**Water resource / Water management**
- Management of water usage. Avoid unnecessary wastage especially at car washing bay
- Recycling of water at the construction phase where possible
- Use of water conservation signs at the wash rooms and install water conserving taps
- Follow the NEMA regulations on water quality and waste management.

Air pollution through dust and gaseous emissions
- Control speed and operation of construction vehicles
- Prohibit idling vehicles
- Water should be sprayed during the construction phase of excavated areas
- Regular maintenance of construction plant and equipment
- Engage sensitive construction workers
- Proper use of PPEs

Oil pollution
- Proper storage, handling and disposal of new oil and used oil and related wastes
- Maintain plant and equipment to avoid leaks
- Maintenance of construction vehicles should be carried out in the contractors yard (off the site)
- Provide oil interceptors along the drains leading from car wash, service bays, oil storage areas and dispensing pumps islands.

Changes in hydrology / impended drainage
- Proper installation of drainage structures
- Install cascades to break the impact of water flowing in the drains
- Ensure efficiency of drainage structures through proper design and maintenance
- Provide gratings to the drainage channels
- Regular checks on any sludge along drainage channels
- Visual checks of oil interceptors and drainage channels for any leaks.

Legal Issues
- Follow the Energy Act, 2006 requirements and its subsidiary legislation

The full report of the proposed project is available for inspection during working hours at:

(a) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839–00200, Nairobi.

(b) Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.

(c) Provincial Director of Environment, Nairobi Province.

(d) District Environment Office, Thika District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED TENTED CAMP ON PLOT NUMBER 4510 KIRUYU SHEET 26, IGEMBE NORTH

THE NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed construction of a tented camp.

The proposed project will involve construction of the following:
- Fifteen (15) guest tents/cabins, in each two beds are accommodated one queen size, one single, a maximum capacity of 45 guests. They will be suspended from the floor and will sit on metal rails, as shown in the figure 1 below.
- One restaurant/lounge cabin/reception cabin
- Metal container for kitchen
- Metal container that will serve as a store
- Three (3) containers for staff’s general usage
- Two (2) metal containers for driver usage
- Two metal containers placed on each other to hoist water tank to create high pressure for solar heaters
- Five (5) solar heaters; 1 for staff, 1 for kitchen, 3 for tents
- Fibre glass wading pool
- Nature trails for walking around

The proposed site is located on Plot No. 4510 Kiruyu Sheet 26, Murera village, Baariru sub-location, Kawiru location, Ndoleli division, in Igembe North District of Eastern province.

The project anticipates the following impacts and mitigation measures:

### Possible Impacts

#### Excessive water consumption
- Estimate water demand for the tented camp.
- Select water-conserving and harvesting technologies.

#### Water pollution
- Conduct careful analysis of soils and subsurface geology. Incorporate correct placement and leach field design into planning and construction specifications.
- Establish a comprehensive plan for disposal of accumulated human waste using NEMA certified companies.

#### Increased energy consumption
- Emphasize use of solar power, step down powerline for supply by KPLC, Restricted use of generator
- Develop and implement energy conservation plans.

#### Wildlife human conflict
- Do not erect electric fences around the facility
- Use wildlife-friendly fences such as live fences around the facility.

#### Solid waste
- Develop plans for disposal of solid waste and recycling of wet wastes (organics), paper, metal, and plastics.
- Require all visitors and tour operators to “bag and remove” all solid waste from the camp, where feasible, employ a “check-in, check-out” system for all food consumed by visitors.

### Mitigation Measures

#### Loss of habitat
- Schedule regular field inspection by designated ecologist.
- Revise work plans, management plans and strategies annually
- Do not introduce alien plant/wildlife species in the area

#### Overflow of liquid wastes
- Ensure manhole lid is closed always
- Periodic emptying of the septic tank to designate waste site using NEMA approved vehicles

#### Occupational health & safety
- Carry out health and safety plan described under “Construction and operational safety” above.
- Conduct periodic retraining of staff in maintenance and operation of equipment.
- Observe OHS policy and other labour laws

The full report of the proposed project is available for inspection during working hours at:

- (e) Director-General, the National Environment Management Authority (NEMA), Kapiti Road, off Mombasa Road, P.O. Box 67839–00200, Nairobi.
- (f) Permanent Secretary, Ministry of Environment and Mineral Resources, N.H.I.F. Community, P.O. Box 30521, Nairobi.
- (g) Provincial Director of Environment, Eastern Province.
- (h) District Environment Office, Igembe North District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY
REPORT FOR THE PROPOSED THIKA GREENS LIMITED HOUSING DEVELOPMENT PHASE II ON PLOT L.R. NO. 10744 IN THIKA DISTRICT

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environment Management Authority, (NEMA) has received an environmental impact assessment study report for the implementation of the proposed housing development.

The proposed project will comprise a housing estate including a police post, a dispensary, a community centre, a church, a nursery, primary schools, a shopping mall, a five star hotel and a modern golf course.

The proposed site of approximately 2,500 acres is located in New Kandara District about 4 kilometers to the North of Thika town in Thika district and lies between the old Muranga Road and Kandara Road.
The project anticipates the following impacts and mitigation measures:

<table>
<thead>
<tr>
<th>Possible Impact</th>
<th>Mitigation Measures</th>
</tr>
</thead>
</table>
| Soil Erosion    | • Construct and maintain storm water drains  
|                 | • Plant trees and other soil conservation structures  
|                 | • Use excavated soil for landscaping elsewhere to compensate loss  
|                 | • Source building materials from known sustainable sites to minimise extraction impacts  
|                 | • Plant grass in open spaces and construct gabions on steep slopes  
|                 | • Encourage rain water harvesting and storage to minimise run off  
| Loss of Vegetation | • Clearing only the areas that require development  
|                 | • Planting vegetation cover after the construction phase  
|                 | • Maintaining the vegetation regularly to avoid its depletion  
|                 | • Construct drainage channels and plant appropriate grass  
| Water Pollution | • Ensure that rain water run offs do not flood the plains before finding their way to river, as this would collect silt and other debris  
|                 | • Proper and controlled refuse collection and disposal to designated areas  
|                 | • Ensure proper sewage treatment and disposal  
|                 | • Regular maintenance of the sewage treatment plants  
|                 | • Ensure separation of the storm water and sewage to avoid overloading and overflow of the sewerage system  
| Air pollution | • Controlled earthworks during construction  
|                 | • Sprinkling of water on dry/dusty surfaces before, during and after demolition and vehicle movements.  
|                 | • Cover the demolition waste during transportation to disposal sites  
|                 | • Ensuring plant and vehicles are properly and regularly maintained  
|                 | • Discourage plant operators and drivers from unnecessary revving and idling.  
| Noise Pollution | • Provision and use ear muffs and other Personal Protective Equipments  
|                 | • The noise emitting plant and machinery to be used during the day when most of the receptors are at work.  
| Accidents/incidents | • Provide and use appropriate personal protective equipment  
| Possible Impact | Mitigation Measures |
|                 | • Prudent procurement, storage, handling and use of building and other potentially hazardous materials  
|                 | • To have emergency preparedness plans in place, e.g. first aid service availability, evacuation plans for the injured e.t.c.  
|                 | • Strict adherence to the building plans and building code to avoid collapse of the structures and consequential injury  
|                 | • To prominently display appropriate warning signs for management controls.  
|                 | • To provide adequate drinking water and onsite sanitation facilities to avoid spread of waterborne/water based diseases  
|                 | • Take out workers insurance and workman compensation policies for the workers  
|                 | • Provide education and awareness on health and safety issues  
| Occupational Health and Safety | • Education and awareness creation on safety precautions on handling/operations during construction  
|                 | • Provide first aid kit and a trained first aid provider at the proposed project site during construction  
|                 | • Install smoke detectors inside buildings  
|                 | • Engage only qualified and experienced operators to handle heavy plant and machines for efficiency and effectiveness during construction.  
|                 | • Put fire extinguishers at strategic sites during, occupation and decommissioning  
|                 | • Ensure adequate water stocks and operational pressures for firefighting during occupation  
|                 | • Post warning ‘NO SMOKING’ signs at fire prone areas  
| Congestion of People and Traffic | • Improve the estates approach roads in the neighbourhood, as part of their infrastructure improvement project to make access to the estate easier.  

The full report of the proposed project is available for inspection during working hours at:

1. *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.

2. *Legislative Supplement* contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.

3. *Bill Supplement* contains Bills which are for introduction in the National Assembly.

4. *Act Supplement* contains Acts passed by the National Assembly.

All “copy” submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

(i) Signature must be supported by rubber-stamping or typng the name of the signatory in capital letters.

(ii) Dates must be correct and filled in where necessary.

(iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

**Extract From the Code of Regulations, Section D**—

Kenya Gazette

“D 34. (1) Communications for the *Kenya Gazette* should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the *Kenya Gazette* and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
