FOURTH SCHEDULE
(s. 3B)

FUNDAMENTAL PRINCIPLES OF OFFICIAL STATISTICS

Principle 1. Official statistics provide an indispensable element in the information system of a democratic society, serving the Government, the economy and the public with data about the economic, demographic, social and environmental situation. To this end, official statistics that meet the test of practical utility should be compiled and made available on an impartial basis by the Kenya National Bureau of Statistics to honour citizens' entitlement to public information.

Principle 2. To retain trust in official statistics, the Kenya National Bureau of Statistics shall apply strictly the professional considerations, including scientific principles and professional ethics, on the methods and procedures for the collection, processing, storage and presentation of statistical data.

Principle 3. To facilitate a correct interpretation of the data, the Kenya National Bureau of Statistics shall present information according to scientific standards on the sources, methods and procedures of the statistics.

Principle 5. Data for statistical purposes may be drawn from all types of sources, be they statistical surveys or administrative records. The Kenya National Bureau of Statistics shall choose the source with regard to quality, timeliness, costs and the burden on respondents.

Principle 6. Individual data collected by the Kenya National Bureau of Statistics for statistical compilation, whether they refer to natural or legal persons, shall be strictly confidential and used exclusively for statistical purposes.

Principle 7. The Kenya National Bureau of Statistics shall co-operate with other National statistical agencies within their countries to achieve consistency and efficiency in the National Statistical System.

Principle 8. The Kenya National Bureau of Statistics shall apply the international concepts, classifications and methods to promote the consistency and efficiency of the National Statistical System at all official levels.
