THE EAST AFRICAN COMMUNITY

MEMORANDUM.

The object of this Bill is to establish the Inter-University Council for East Africa.

It is an objective of the Community to rationalize and harmonise the Partner States’ policies in the development of human resources, science and technology, through inter alia the co-ordination of human resources development policies and programmes; strengthening of existing and, where necessary, establish new common research and training institutions; development of such common programmes in basic, intermediary and tertiary education and general programmes for adult and continuing education in the Partner States as would promote the emergence of well trained personnel in all sectors relevant to the aims and objectives of the Community; revival and enhancement of the activities of the Inter-University Council for East Africa; identification and development of centres of excellence; the joint establishment and support of scientific and technological research and development and of institutions in the various discipline of science and technology. (Articles 102 - 103 of the Treaty).
The Community, in its Development Strategy 2001 - 2005, perceived the development of human resources by Partner States to be one of the fundamental bases for sustainable development of cooperation. Currently Partner States have varying education syllabi, certification and standardization. As background preparation for the attainment of a common market where the labour force will be moving freely in the region, the education syllabi and training standards shall be harmonized. Under this strategy the Partner States undertook to coordinate all human resource training programmes focusing on their development e.g. basic intermediary tertiary and special education, adult and continuing education, full professional oriented training programmes at higher levels and vocational training.

In addition, the Partner States undertook to focus on the operationalisation of an East African Advisory Committee on Education, Research and Training; the harmonization of curricula, examination and certification and accreditation of education and training institutions, extension of support to the Inter-University Council for East Africa; and the promotion and development of Centres of Excellence at the institutions of higher learning.

In its institutional arrangements, the Bill establishes the Inter-University Council for East Africa and confers on the Council, corporate personality. The Bill also establishes the Governing Board as the governing body of the Council, and the Secretariat which shall serve as the Secretariat of the Council.

Funds of the Council shall comprise equal contributions by the Partner States in accordance with the budget drawn by the Governing Board and approved by the East African Legislative Assembly. Accounts of the Council shall be audited by the Audit Commission.

Finally the Bill makes provision for the privileges and immunities which the Partner States shall grant to the Council.

RT. HON. ERIYA KATEGAYA,
Chairperson, Council of Ministers.
