MERGER NOTIFICATION FORM*Instructions*

1. *This form is issued Pursuant to Section 43 (1) of the Competition Act which stipulates that each of the undertakings to the merger shall notify the Authority of the proposal in writing or in the prescribed manner.*
2. *The objective of this merger notification form is to improve the efficiency, transparency and predictability of the merger notification process.*
3. *Please note that the Competition Act empowers the Competition Authority of Kenya to obtain information relevant to evaluate mergers and acquisitions. This form facilitates the process by identifying relevant information depending on the activities of the merging parties and whether they are operating in the same markets and/or are actual or potential customers or suppliers to each other. By anticipating the likely information required by CAK and collating it in advance the time taken for the evaluation of the merger will be reduced. However, omitting relevant information may lead to the merger evaluation being delayed.*

This table below summarizes the schedules which should be normally submitted, depending on the characteristics of the merger. The thresholds referred to therein are according to the CAK Merger Threshold Guidelines.

<i>Characteristics of the merger</i>	<i>Schedules to be submitted</i>
<ul style="list-style-type: none"> • Firms applying for exclusion as prescribed by the CAK Merger Threshold Guidelines, 	<i>Schedule I (only questions 1-26) and Schedule IV</i>
<ul style="list-style-type: none"> • Merger at or above the prescribed thresholds • Merging parties do not operate in the same line of business; and/or • No vertical relationships among merging parties 	<i>Schedules I and IV</i>
<ul style="list-style-type: none"> • Merger at or above the prescribed thresholds; and • Merging parties operate in the same line of business or there are vertical relationships among merging parties 	<i>Schedules I, II, IV</i>
<ul style="list-style-type: none"> • Merger at or above the prescribed thresholds • Merging parties operate in the same line of business or there are vertical relationships among merging parties; and/or • High likelihood that combined market share of merging parties falls above 35% in one or more markets and/or one or more of the parties are dominant in at least one market 	<i>Schedules I, II, III, IV</i>

- a. Schedules I (Question 1-26) must be completed by all undertaking applying for exclusion. For firms that qualify for exclusion, refer to the CAK Merger Threshold Guidelines. Please note that all firms applying for exclusion must provide all documentation requested in Schedule I.
 - b. Schedules I and IV must be completed by all undertakings in mergers which are at or above the prescribed merger thresholds. Also, where there are public interest issues, such as whether the merger will be accompanied by some employment losses as the merging firms rationalise their operations and/or whether the merger is claimed to generate employment, information should be provided on such. Note that claims about the benefits of the merger for the economy must be backed up by evidence that demonstrates the likely effects and why the merger is necessary for them to be realised. These can be taken into account and weighed against possible lessening of competition as a result of a merger. For reference to CAK Public Interest Guidelines, download the Guidelines by clicking the following link:-

http://cak.go.ke/index.php/status-regulations/the-competition-act-no-12-of-2010/cat_view/6-mergers/22-balancing-public-interest-guidelines.html
 - c. Schedule II identifies the products and services of the merging parties and is part of assessing the competition analysis that is required to review the merger. For example, if the merging parties operate in the same line of business there is a possible horizontal overlap and more detail is required on the specific products and services they supply, by geographic area, and on the other competitors which exist. If the merging parties are in a vertical relationship to each other information will be required on the extent and nature of competition in both the upstream and downstream markets. Typically a more detailed assessment is required if the merging parties have a combined market share of greater than 35% in one or more markets.
 - d. Schedule III sets out detailed information that will be required for a more detailed competition assessment. This includes information at different market levels and on barriers to entry. By anticipating the need for such information and collating it in advance merging parties can substantially reduce the time required for the merger to be assessed.
 - e. Schedule IV is a declaration.
4. Answer questions on separate sheets marked Schedules I to IV, as appropriate.

It is important that relevant documents are attached pertaining to the issues addressed in the different schedules. Note that parties are obliged to provide all relevant documents including those that may not be consistent with what is being claimed in the merger filing. Note that the provision of documents/information that may not be consistent with information in the merger filing will not necessarily result in the application being denied.
 5. Where supporting documents are not available an affidavit must testify to the accuracy of the information provided and the non-existence of supporting documents.
 6. You may identify material you consider as commercially sensitive and apply for confidentiality as provided in Section 20 of the Competition Act.

7. The completed Merger notification form together with the most recent documents should be submitted to:
