Bill for Introduction into the Senate—

The County Allocation of Revenue Bill, 2015................................................................. 57
THE COUNTY ALLOCATION OF REVENUE BILL, 2015

ARRANGEMENT OF CLAUSES

Clause
1—Short title.
2—Interpretation.
3—Object and purpose of the Act.
4—Equitable allocation of county governments’ share of revenue.
5—Conditional allocations to county governments.
6—Transfers made in error or fraudulently.
7—Report on actual transfers.
8—Books of accounts to reflect national government transfers.
9—Resolution of disputes and payment of wasteful expenditure.
10—Financial misconduct.
11—Cabinet Secretary to make Regulations.
12—Clarification of revenue sharing formula to apply.

FIRST SCHEDULE
Allocation of Each County Government’s Equitable Share of Revenue Raised Nationally, Financial Year 2015/16.

SECOND SCHEDULE
Conditional Additional Allocations to County Governments from National Government Revenue in Financial Year 2015/16.

THIRD SCHEDULE
Conditional Additional Allocations to County Governments from Loans and Grants from Development Partners in Financial Year 2015/16.

APPENDIX
Explanatory memorandum to the County Allocation of Revenue Bill, 2015.
THE COUNTY ALLOCATION OF REVENUE BILL, 2015

A Bill for

AN ACT of Parliament to provide for the equitable allocation of revenue raised nationally among the county governments for the 2015/16 financial year and the responsibilities of the national and the county governments pursuant to such allocation; and for connected purposes

ENACTED by Parliament of Kenya, as follows—

PART I—PRELIMINARY

1. This Act may be cited as the County Allocation of Revenue Act, 2015.

2. In this Act—

"Cabinet Secretary" means the Cabinet Secretary for the time being responsible for matters relating to finance;

"conditional additional allocations" for the purposes of this Act, means additional resources allocated to county governments from revenue raised nationally or in the form of loans and grants from development partners;

"revenue" has the meaning assigned to it under section 2 of the Commission on Revenue Allocation Act, 2011;

"State Organ" has the meaning assigned to it under Article 260 of the Constitution; and

"wasteful expenditure" has the meaning assigned to it under section 2 of the Public Finance Management Act, 2012.

3. The object and purpose of this Act is to—

(a) provide, pursuant to Article 218(1)(b) of the Constitution, for the allocation of an equitable share of revenue raised nationally among the county governments, in accordance with the resolution approved by Parliament under Article 217 of the Constitution for the financial year 2015/16;

(b) provide, pursuant to Article 187(2) and 202(2) of the Constitution, for conditional allocations for the financial year 2015/16; and
(c) facilitate the transfer of allocations made to counties under this Act from the Consolidated Fund to the respective County Revenue Funds.

4. (1) Each county government's equitable share of revenue raised nationally, on the basis of the revenue sharing formula approved by Parliament in accordance with Article 217 of the Constitution in respect of the financial year 2015/2016 shall be as set out in Column D of the First Schedule.

(2) Each county government's allocation under subsection (1) shall be transferred to the respective County Revenue Fund, in accordance with a payment schedule approved by the Senate and published in the gazette by the Cabinet Secretary in terms of section 17 of the Public Finance Management Act.

5. (1) Conditional additional allocations from national government revenue to each county government for the financial year 2015/16 shall be as set out in Column H of the Second Schedule, comprising of—

(a) conditional allocations for level 5 hospitals as set out in Column B of the Second Schedule;

(b) conditional allocations for free maternal health care as set out in Column C of the Second Schedule;

(c) conditional allocations to compensate county health facilities for forgone user fees revenue as set out in Column D of the Second Schedule;

(d) conditional allocations for leasing of medical equipment as set out in Column E of the Second Schedule;

(e) conditional allocations from the Road Maintenance Fuel Levy Fund for the repair and maintenance of county roads as set out in Column F of the Second Schedule; and

(f) conditional allocations towards respective county emergency funds as set out in Column G of the Second Schedule.

(2) Conditional additional allocations financed by proceeds of loans or grants from development partners to
each county government for the financial year 2015/16 shall be as set out in Column E of the Third Schedule, comprising of—

(a) conditional allocations financed by a loan from the World Bank to supplement financing for county health facilities as set out in Column B of the Third Schedule;

(b) conditional allocations financed by a grant from the Government of Denmark to supplement financing for county health facilities as set out in Column C of the Third Schedule; and

(c) conditional allocations to ensure continuation of services financed by loans and grants from other development partners as set out in Column D of the Third Schedule.

(3) A county governments allocation under subsection (1) (a), (b), (c) and (e) shall be transferred to the respective County Revenue Fund, in accordance with a payment schedule published in the Gazette by the Cabinet Secretary in accordance with section 17 of the Public Finance Management Act, 2012, but shall only be accessed by each county government after meeting conditions set by the Cabinet Secretary responsible for that function at the beginning of the financial year and such transfers shall be included in the budget estimates of the county government and submitted to the county assembly for approval.

(4) The county governments allocations under subsection (1)(d) shall be included in the budget estimates of the national government and shall be submitted to Parliament for approval provided that the national government and county will have an intergovernmental agreement in line with Article 187 of the Constitution.

(5) A county governments allocation, under subsection (1)(f) shall be transferred to the county emergency fund.

(6) A county governments allocation under subsection (2) (a) and (b) shall be transferred to the respective County Revenue Fund, in accordance with a payment schedule published in the gazette by the Cabinet Secretary in accordance with section 17 of the Public Finance Management Act, 2012, provided the Cabinet Secretary and the responsible development partner have agreed in
writing that the funds shall be transferred to the county governments and such transfers shall be included in the budget estimates of the county government and submitted to the county assembly for approval.

(7) The county governments allocations under subsection (2)(c) shall be included in the budget estimates of the national government and shall be submitted to Parliament for approval.

(8) Functions published in the gazette for transfer after Parliament has approved the national government budget for 2015/16 shall take effect in the next financial year, 2016/17.

6. (1)Despite the provisions of any other law, where it is determined that the transfer of funds to a county government was done in error or fraudulently, such a transfer shall be regarded as not legally due to that county government.

(2) An erroneous transfer contemplated in subsection (1) may be recovered immediately or set-off against future transfers to that county government which would otherwise become due in accordance with the payment schedule approved by the Senate and published in the gazette by the Cabinet Secretary in accordance with section 17 of the Public Finance Management Act, 2012.

7. The National Treasury shall publish a monthly report on actual transfers of all allocations to county governments.

8. (1) Each county treasury shall reflect all transfers by the national government to the county governments in its books of accounts.

(2) The estimates of revenue of each county shall separately reflect the total equitable revenue share under Section 4 of this Act and any other conditional additional allocations from the national government transferred to the County Revenue Fund.

(3) A county treasury shall, as part of its consolidated quarterly and annual reports required under the Public Finance Management Act, 2012, report on actual transfers received by the county government from the national government, up to the end of that quarter or year in the format prescribed by the Public Sector Accounting
Standards Board or, in the absence of the Board, in the format prescribed by the National Treasury.

9. (1) Any state organ involved in an intergovernmental dispute regarding any provision of this Act or any division of revenue matter or allocation shall, before approaching a court to resolve such dispute, make every effort to settle the dispute with the other state organ concerned, including exhausting all alternative mechanisms provided for resolving disputes in relevant legislation.

(2) If a court is satisfied that a state organ, in an attempt to resolve a dispute has not exhausted all the mechanisms for alternative dispute resolutions as contemplated in section 35 of the Intergovernmental Relations Act, 2012 and refers the dispute back for the reason that the state organ has not complied with subsection (1), the expenditure incurred by that state organ in approaching the court shall be regarded as wasteful expenditure.

(3) The costs in respect of wasteful expenditure referred to in subsection (2) shall, in accordance with a prescribed procedure, be recovered without delay from the person who caused the state organ not to comply with the requirements of subsection (1) in accordance with section 203 of the Public Finance Management Act, 2012.

10. Despite the provisions of any other law, any serious or persistent non-compliance with provisions of this Act constitutes an offence under the Public Finance Management Act, 2012.

11. The Cabinet Secretary may, with the approval of Parliament, make regulations on—

(a) any matter in respect of which regulations require to be made under this Act; and

(b) any subsidiary or incidental administrative or procedural matter necessary for the proper implementation or administration of this Act.

12. For the avoidance of doubt, the allocation of the equitable share of revenue to the county governments under section 4 of this Act shall be in accordance with the first determination of the basis of the division of revenue among counties approved by Parliament pursuant to Article 217 (7) of the Constitution.

MEMORANDUM OF OBJECTS AND REASONS

The principal object of this Bill is to make provision for the allocation of revenue raised nationally among the county governments for the financial year 2015/2016.

Clause 1 of the Bill provides for the short title while Clause 2 defines the various terms used in the Bill.

Clause 3 of the Bill contains the objects and the purpose of the Bill which is to provide for the allocation of revenue raised nationally and conditional allocations among county governments for the financial year 2015/16 as well as the transfer of the county allocations from the Consolidated Fund to the respective County Revenue Fund.

Clause 4 of the Bill deals with the allocation of equitable share of revenue raised nationally to each county government.

Clause 5 of the Bill provides for conditional allocations to be made to county governments.

Clause 6 of the Bill sets out provisions affecting the transfer of funds to a county government made in error or fraudulently.

Clause 7 of the Bill provides for the publishing of quarterly reports on actual transfers of all allocations to county governments by the national government.

Clause 8 of the Bill makes provision for a county treasury to reflect the total transfers from the national government in its books of accounts.

Clause 9 of the Bill contains provisions for the mechanisms for resolution of disputes arising from the provisions of this Act or any issue on division or allocation of revenue to county governments.

Clause 10 of the Bill deals with what constitutes financial misconduct.

Clause 11 of the Bill mandates the Cabinet Secretary to make regulations for proper implementation of the Act.

Clause 12 of the Bill extends the validity of the first formula for sharing revenue among county governments approved in accordance with Article 217 of the Constitution in the event that Parliament has not approved another formula to replace the first one.

Dated on the 15th April, 2015.

MUTAHI KAGWE,
Senator.
APPENDIX

EXPLANATORY MEMORANDUM TO THE COUNTY
ALLOCATION OF REVENUE BILL, 2015

Background

1. This memorandum is prepared in fulfilment of the requirements of Article 218(2) of the Constitution and section 191 of the Public Finance Management Act, 2012, which requires that the County Allocation of Revenue Bill tabled in Parliament be accompanied by a memorandum that:

(a) explains the revenue allocation as proposed by the Bill;

(b) evaluates the Bill against the criteria set out in Article 203(1) of the Constitution;

(c) provides a summary of significant deviations from the recommendations of the Commission on Revenue Allocation (CRA) together with the explanation for such deviations;

(d) explains the extent, if any, of deviation from the recommendations of the Intergovernmental Budget and Economic Council; and

(e) explains any assumptions and formulae used in arriving at the respective shares under the County Allocation of Revenue Bill, 2015.

Explanation of Revenue Allocation as Proposed by the Bill

2. The County Allocation of Revenue Bill, 2015 proposes to allocate a total of Ksh. 291.444 billion of resources raised nationally to county governments. This is equivalent to 37 percent of most recent audited revenues which have been approved by the National Assembly for the financial year 2012/13 (i.e. Ksh. 776.9 billion). This comprises of an equitable share of Ksh. 259.774 billion or 33 percent of the most recent audited revenue and conditional additional allocations of Ksh. 31.669 billion.

3. The county governments’ equitable share of revenue was allocated among the county governments on the basis of the revenue allocation criteria approved by Parliament in accordance with Article 217 of the Constitution.

4. The conditional additional allocations proposed in the Bill include:

- **Conditional Allocation in support of Free Maternal Health Care of Ksh 4.298 billion.** This grant is to be transferred to County Governments on a reimbursement basis, upon
confirmation that the County Government provided maternal health care services in their health facilities in accordance with agreed specifications. This grant is intended to facilitate access to free maternal health care in order to reduce the high maternal and child mortality rates in Kenya. This grant will be distributed among County Governments on the basis of percentage contribution to total number of maternity deliveries during the financial year 2013/14. It should, however, be noted that the Ministry of Health is currently working on modalities of replacing this arrangement of ‘cash transfers’ to county health facilities with an insurance scheme that will guarantee all women of the reproductive age 15-45 access to free maternal health care in the county health facilities.

- **Conditional allocation to facilitate the leasing of health care equipment of Ksh 4.5 billion.** This grant is intended to facilitate the purchase of modern specialised health care equipment in at least two health facilities in each County Government over the medium term. This will facilitate easy access to specialised health care services and significantly reduce the distance that Kenyans walk in search of such services today. This conditional allocation is to be allocated to County Governments equally.

- **Conditional Allocation for level-5 hospitals of Ksh. 3.6 billion.** Level-5 hospitals continue to play a significant role in providing specialised health care services to Kenyans. These hospitals provide specialised health care services to citizens residing outside their host County Governments, usually for specialized treatment referred from lower level health facilities. In order to compensate them for the costs incurred in rendering services to neighbouring County Governments, the national government proposes to allocate Ksh. 3.6 billion to be transferred to County Governments as a conditional grant. This conditional allocation is to be shared among County Governments on the basis of percentage bed occupancy per hospital in 2014.

- **Conditional Allocation from the Road Maintenance Fuel Levy Fund of Ksh. 3.3 billion.** In order to enhance County Governments capacity to repair and maintain county roads the National Government proposes to transfer 15 percent of the Road Maintenance Fuel Levy Fund to the County Governments. This grant is to be shared among County Governments on the basis of the revenue sharing formula approved by Parliament in accordance with Article 217 of the Constitution.
• **Conditional Allocation of Ksh. 900 million to compensate county health facilities for forgone user fees.** It is the intention of government to sustain the Government policy of not charging user fees in public health facilities. In this regard, the National Government has allocated Ksh. 900 million to compensate county governments for revenue forgone by not charging user fees in the county health facilities. This grant is to be allocated among County Governments on the basis of the annual consolidated facility outpatient (OPD) attendance workload as reported in the Health Information System (DHIS).

• **Conditional Allocation of Ksh.4.400 billion to counties to provide for County Emergency Funds.** The funds would facilitate the setting up of County Emergency Funds for each county government to cater for emergencies and therefore to mitigate effects of occurring disasters in the counties.

5. The Bill proposes to allocate conditional allocations of Ksh. 844.7 million from the proceeds of a grant from the Government of Denmark and a further Ksh. 508.2 million from the proceeds of a loan from the World Bank. These conditional allocations will be transferred directly to the County Revenue Fund of county governments upon confirmation that the county governments have met agreed conditions. These funds are intended to support the delivery of health services in county health facilities and with a view to increase access to health care services by Kenyans and in particular the poor. The funds are to be allocated to County Governments on the basis of the criteria specified in the financing agreement between the Government of Kenya and the development partners.

6. The Bill also proposes conditional allocations amounting to Ksh. 9.3 billion from the proceeds of other loans and grants from development partners and the Government counterpart funding derived from the National Government’s share. These conditional allocations from proceeds of loans and grants, however, will not be transferred to County Governments in the financial year 2015/16 because existing financing agreements with development partners as well as on-going contracts with suppliers may not allow. The National Treasury has therefore proposed that these funds be budgeted for and managed by the national government while ensuring full involvement of the county governments in their management through the Project Steering Committees and Project Implementation Units.

**Evaluation of the Bill against Article 203(1) of the Constitution**

7. **Developmental needs of county governments and their ability to perform the functions assigned to them:** The Bill proposes to allocate
equitable share of revenue among county governments on the basis of the formula for sharing revenue approved by Parliament in accordance with Article 217 of the Constitution. This formula incorporates parameters that measure the expenditure needs of counties. Some of the parameters that measure expenditure needs of counties include: population (45%), land area (8%) and poverty (20%). The equitable share of revenue allocated to county governments is shared among county governments on the basis of this formula. Some conditional allocations, such as, allocation from the Road Maintenance Fuel Levy Fund are also proposed for transfer to the county governments on the basis of the formula. It can therefore be argued that when county governments are allocated resources on the basis of this formula, the developmental needs of the county governments are taken care of to the extent possible given the available resources.

8. Economic disparities among counties as well as disadvantaged areas and groups within counties: The allocation of the sharable revenue among counties was based on the formula for sharing revenue among counties approved by Parliament in accordance with Article 217 of the Constitution, which takes into account disparities among counties and aims at equitable distribution of resources. It should also be noted that Ksh. 6.0 billion has been set aside for the Equalization Fund in 2015/16. This fund will be used to finance development programmes that aim to reduce regional disparities among counties.

9. Stability and Predictability of County Revenue Allocations: The Division of Revenue Bill, 2015 has proposed that county governments’ equitable share of revenue raised nationally be ring-fenced. Variance in revenue raised nationally from the expected revenue not exceeding ten percent is not expected to affect the county governments’ allocations of the equitable share of revenue raised nationally. This is because such shortfalls in revenue raised nationally shall be borne by the national government.

10. Fiscal capacity and efficiency: County governments have been assigned specific taxes, fees and charges under Article 209 of the Constitution. Official data for each county government’s fiscal capacity and efficiency of revenue collection is not available and therefore it is not possible to take into account this criterion in the sharing of revenue among county governments.

Evaluation of Deviations from the recommendations of the Commission on Revenue Allocations

11. There are differences between the National Treasury’s proposal on the revenue allocation among county governments and CRA’s recommendations. The differences stem primarily from the different approaches used in the computation of the county governments’ equitable
share. Table 1 below analyses the differences between the CRA recommendations and the National Treasury proposal on the division of revenue between the national and county governments in 2015/16.

* Source: National Treasury

* The allocation of Ksh. 3.3 billion from the Road Maintenance Fuel Levy Fund to county governments is not included as part of the equitable share under the National Treasury proposal but instead is provided as a conditional allocation to county governments (see the Schedule in the Division of Revenue Bill, 2015).
12. The Commission on Revenue Allocation has proposed revenue and conditional additional allocations to counties of Ksh. 282.4 billion in the financial year 2015/16. This is approximately 36 percent of most recent audited revenue approved by Parliament for the financial year 2012/13 (i.e. KSh. 776.9 billion). However, based on Senate resolutions, total consideration to cater for salaries awards by Salaries and Remuneration Commission is Kshs Ksh.6.266 billion, and Kshs 4.4 billion for county emergencies were further factored in to address the substantial deviation. In addition, Ksh. 1.536 billion as additional intervention to level 5 hospitals were also contained in the Resolutions bringing total proposed allocation to Kshs 3.6 billion. The following reasons also explain the difference in the various proposal:

(i) The CRA provides for adjustments of salaries and allowances for county assemblies of Ksh. 6.6 billion and county executives of Ksh. 6.0 billion. These salary adjustments were based on various gazette notices issued by the Salaries and Remuneration Commission (SRC) and other guidelines issued by the Transition Authority. It is expected that going forward when salaries and other benefits of staff are adjusted periodically, each level of Government should identify areas to make savings to cater for such adjustments. In addition, the annual growth in revenues is expected to cater for expansion of services as well as cushion each level of government and therefore adjustments of county governments’ salaries and allowances should not be paid for from the revenue share of the national government. In a meeting of the Intergovernmental Budget and Economic Council (IBEC) it was noted that the salary awards by SRC and the Transition Authority had significant cost implication and it was therefore resolved that the county governments be allocated an additional Ksh. 4.5 billion in 2015/16 to cover the cost of increases in salaries and allowances awarded by the SRC in 2014/15.

(ii) The CRA has proposed an allocation of Ksh. 3.3 billion as part of the county governments’ equitable share for leasing of medical equipment whereas the national government has proposed Kshs. 4.5 billion as a conditional allocation. It should be noted that this amount was part of the national government share of revenue in 2014/15 financial year as determined by Parliament. Health care, however, is a devolved function and therefore there is merit in ensuring that intergovernmental agreement is signed between the national government and county governments in line with Article 187 of the Constitution.
In any case the facilities to be equipped are under the management of county governments. It should, however, be noted that this allocation relates to a national strategic intervention aimed at improving access to specialised health care services at the county government level. The ultimate objective is to equip two hospitals per county in order to decongest the referral hospitals as well as ensure each county government has a referral hospital. In light of the importance the National Government places on the need to equip health care facilities with medical equipment, the Bill proposes to allocate a higher amount of Ksh. 4.5 billion for leasing of medical equipment.

(iii) The CRA proposes that 15 percent (estimated at Ksh. 3.3 billion) of Road Maintenance Fuel Levy Fund be transferred to county governments as part of the equitable share of revenue for the maintenance of county roads whereas the National Treasury proposes Kshs. 3.3 billion to be a conditional allocation designed for county road maintenance by the county government. It should be noted that this fund was established for purposes of financing road maintenance. Since part of the Fund was previously, (that is, prior to the promulgation of the Constitution) used to maintain some rural and urban roads, then part of the Fund should be allocated to the county governments which have taken over the maintenance of this category of roads. In order to ensure that proceeds of this Fund are applied for the maintenance of county roads, the Bill proposes that these funds be provided as conditional allocations to county governments. It should also be noted that the revenue that accrue to the Fund is not part of the shareable revenue as defined in the Commission on Revenue Allocation Act, 2011.

(iv) The CRA has proposed to allocate, as part of county governments’ equitable share, resources for Provision of Early Childhood Development Education (ECDE) infrastructure amounting to Ksh. 3 Billion. It should be noted that this function was transferred to county governments together with related resources. Whereas there is need to increase support for ECDE, it should be noted that national government does not have additional resources to transfer to county governments at the moment given the demands from other national government development priorities. The county governments, however, should set aside resources from their allocation to finance ECDE infrastructure. In addition, county governments by enhancing
their capacity to collect own revenue more efficiently could create fiscal space to facilitate the financing of ECDE initiative.

(v) The CRA proposes an allocation of Ksh. 3 billion for Village Polytechnics. This is an additional allocation being proposed by CRA. It should, however, be noted that the function was transferred together with its attendant resources in 2013. The Ministry of Education has, however, proposed the transfer of Ksh. 0.9 billion being held at the Ministry’s Vote as capitation to Village Polytechnics. In light of the proposal by the Ministry of Education, the Bill proposes that the Ksh. 0.9 billion be part of the equitable share to county governments to support village polytechnics.

(vi) The CRA has proposed that additional Ksh. 0.9 billion be transferred to county governments being an allocation to functions which were gazetted for transfer in March 2014. These functions are the Agricultural Training Centre’s and Agricultural Mechanization Stations. These functions were transferred after the Division of Revenue Bill, 2014 had been passed by the National Assembly. Naturally therefore the attendant resources could not be transferred in 2014/15 financial year. It should, however, be noted that the budgetary resources relating to these functions were Ksh. 0.5 billion and not Ksh. 0.9 billion. In this respect, the Bill proposes that Ksh. 0.5 billion be transferred to the county governments and be included as part of the equitable share of revenue due to the county governments in 2015/16 financial year.

(vii) The CRA has also recommended money for slum upgrading and housing development of Ksh. 245 Million to be transferred as part of equitable share of revenue. This amount is part of an awarded contract by the Ministry of Lands, Housing and Urban Development which is part of counterpart funding for donor financed project and therefore it is not available for transfer, otherwise the project will stall. In light of this, the Bill does not propose the inclusion of this allocation in the county governments’ equitable share of revenue but includes it as part of the conditional allocation of revenue from loans and grants from development partners.

(viii) The CRA, in its recommendation to Parliament, proposes an allocation of Ksh. 4.4 billion to facilitate the setting up of County Emergency Funds for each county government in line
with the provisions of Public Finance Management Act. It should be noted that in the initial costing of devolved functions, the cost of setting up county emergency funds was taken into account. Each county government is therefore expected to set up its emergency fund using funds from the equitable share of revenue. Indeed, a number of county governments have also gone ahead and established their own emergency funds as envisaged in the Public Finance Management Act, 2012.

(ix) Although the base of the county equitable share of revenue is increased by the same factor (10.41 percent) in the CRA recommendations and the Division of Revenue Bill, 2015, there is a slight variance in the adjustment for annual revenue growth of Ksh 0.3 billion. This difference arises from the difference in the base. CRA in its recommendations to Parliament uses the county governments’ equitable share for 2014/15 (Ksh. 226.6 billion as the base). The Division of Revenue Bill, 2015 on the other hand makes some adjustment to the base by adding to the county governments’ share of revenue that relate to transferred functions before growing the adjusted base of 229 billion with a factor of 10.41 percent.

13. The CRA recommends that Ksh. 282.4 billion vertical allocation to county governments be shared among county governments on the basis of the revenue sharing formula approved by Parliament in accordance with Article 217 of the Constitution. The CRA further recommends that each county government’s share of the Ksh. 282.4 billion be transferred to the respective County Revenue Fund. On the other hand, the County Allocation of Revenue Bill, 2015 proposes an equitable share of Ksh. 258 billion to be shared on the basis of the revenue sharing formula and each county government’s share be transferred to their respective County Revenue Fund.

14. In order to ensure that certain national policy objectives are achieved, the Bill proposes that some funds be transferred to county governments as conditional allocations upon confirmation that certain conditions have been met. It is felt that if these funds are transferred to county governments unconditionally it will not be possible to achieve the intended national policy objectives. These include:

- Conditional allocation to finance the free maternal health care of Ksh. 4.298 billion. This is to be allocated to county governments on the basis of the ratio of county population to national population. This is because population is a good proxy of the measure of the demand for free maternal health care,
• Conditional allocation from the Road Maintenance Fuel Levy Fund.
• Conditional allocation to supplement funding for level-5 hospitals, and
• Conditional allocation from proceeds of loans and grants from Government of Denmark and the World Bank amounting to Ksh. 1.4 billion to be transferred to the County Revenue Fund of each county government, on basis of a criteria agreed between the development partners and the Government of Kenya, to supplement funding for county governments’ health facilities.

In addition, the Bill proposes that other conditional allocations be managed by the national government. These include:

• Conditional allocation to finance the leasing of medical equipment of Ksh. 4.5 billion. It is proposed that this conditional allocation be shared equally among county governments.

• Conditional allocations from proceeds of loans and grants from other development partners amounting to Ksh. 9.3billion to be allocated on the basis of financing agreements entered into between the National Government and the development partners and managed by the National Government but with the involvement of county governments in the management structures.

The differences between the proposals set out in the County Allocation of Revenue Bill, 2015 and the CRA’s recommendations notwithstanding, the proposed county governments’ equitable share of revenue in the Bill, stands at 33 percent of the most recent audited revenue, as approved by the National Assembly, is way above the minimum threshold required under Article 203(2) of the Constitution.

In conclusion, it is important to point out that the resources raised nationally may not be sufficient to finance all the proposals made by the CRA. If, all the proposals made by the CRA were taken into account, the national government would be left with a huge financing gap, which can only be financed by additional borrowing. Such additional borrowing would push up interest rates and thereby slow the growth of the economy.
## ANNEXES TO THE SECOND SCHEDULE: FRAMEWORKS FOR CONDITIONAL ADDITIONAL ALLOCATIONS TO COUNTY GOVERNMENTS FINANCED BY REVENUE RAISED BY THE NATIONAL GOVERNMENT

### 1. Conditional Allocation for Free Maternity Health Care
