MEMORANDUM OF OBJECTS AND REASONS

Statement of the Objects and Reasons for the Bill

The Bill seeks to provide a legislative framework for the planning, construction and maintenance of county roads, streets, lanes, alleys, parking bays, drainage systems and pavements in each county. It also provides for the proper planning and placement of access-ways to commercial buildings along major roads within counties.

Statement on the delegation of legislative powers and limitation of fundamental rights and freedoms

This Bill, once enacted, would confer on the county executive committee member responsible for matters relating to roads in each county. It therefore delegates limited and conditional legislative powers. The Bill does not limit fundamental rights and freedoms.

Statement on how the Bill concerns county governments

The proposed Bill concerns county governments in terms of Article 110(1)(a) of the Constitution as it contains provisions that affect the functions and powers of the county governments with respect to county transport, county roads, parking, and public road transport as set out under paragraph 5 of part 2 of the Fourth Schedule to the Constitution. The Bill mandates county governments to plan, construct and maintain county roads, streets, lanes, alleys, parking bays, drainage systems and pavements within the respective counties. The Bill therefore affects the functions and powers of county governments as provided under the Constitution.

Statement that the Bill is not a money Bill, within the meaning of Article 114 of the Constitution

The Bill is not a money Bill within the meaning of Article 114 of the Constitution.
