Statement of the Objects and Reasons for the Bill

The Bill principally seeks to promote the decentralization of development within the counties by creating a framework for identifying projects that are beneficial to the residents of the respective wards and the county generally and providing a framework for the implementation of such projects. The Bill is premised on Article 174 of the Constitution which sets out the objects of devolution, among them being—

(a) to give powers of self-governance to the people and enhance the participation of the people in the exercise of the powers of the State and in making decisions affecting them;

(b) to recognize the right of communities to manage their own affairs and to further their development;

(c) to promote social and economic development and the provision of proximate, easily accessible services throughout Kenya by decentralizing the provision of services pursuant to Article 176 (2) of the Constitution; and

(d) to ensure equitable sharing of national and local resources throughout Kenya.

Statement on the delegation of legislative powers and limitation of fundamental rights and freedoms

The Bill does not delegate legislative powers nor does it limit fundamental rights and freedoms

Statement of how the Bill concerns County Governments

The Bill seeks to provide a framework for the identification of development projects in wards within counties and the modalities for the allocation of resources for these projects. The Bill requires, inter alia, that such projects shall be within the functions of county governments as set out under Part 2 of the Fourth Schedule to the Constitution.

The Bill is therefore one that concerns county governments in terms of Article 110 (1) (a) of the Constitution as its provisions affect the functions and powers of county governments as set out in the Fourth Schedule to the Constitution.
