40. The President may, in consultation with the National Pandemic Response Committee and by notice in the Gazette, declare that a pandemic is no longer a threat to the social, economic or political stability of the country.
MEMORANDUM OF OBJECTS AND REASONS

The principal object of this Bill is to provide a framework for the effective response to and management of a pandemic in order to prevent the occurrence or spread of a pandemic whenever it arises. It also seeks to provide measures to mitigate against the effects of the pandemic and provide a mechanism to cushion those that may be adversely affected by the pandemic.

The unique threats posed by a pandemic owing to its spread across the country and the globe generally and the extent of the damage that it may cause particularly owing to the fact that it may occur over a long period of time means that a specific coordinated response needs to be taken by the National and county governments in order to direct the required resources as quickly and efficiently as possible and thereby effectively respond to the pandemic. This Bill therefore seeks to provide a mechanism for the coordinated response by the National and County Governments and a framework setting out specific measures required to be undertaken to address the socio-economic issues that may arise following a pandemic.

The Bill provides for the establishment of a National Pandemic Response Committee as an ad-hoc committee whenever a pandemic is declared. The Committee is required to spearhead the implementation of activities geared towards preventing the spread and mitigating against the negative impact of a pandemic. The Bill further outlines the functions required to be undertaken by the Committee in order to prevent the spread and address the adverse consequences of the pandemic. It further requires the Committee to submit a report on its activities together with its recommendations to Parliament at least one month after the declaration of the end of a pandemic.

The Bill also sets out the role of the county governments in the event of a pandemic. The County Governments are required to collaborate with, and complement the efforts of the National Government in responding to a pandemic. It provides a framework for the establishment of a County Pandemic Response Committee in order to effectively respond to the pandemic. It further requires the Committee to submit a report on its activities together with its recommendations to the respective County Assembly at least one month after the declaration of the end of a pandemic.

The Bill provides for the establishment of a Pandemic Fund whenever a declaration of a pandemic is made. The Fund would serve as a mechanism for ensuring that there are adequate resources geared towards containing the spread and mitigating against the impact of a pandemic. The fund is to be administered by the Principal Secretary responsible for matters relating to finance and is expected to be wound up upon the publication of a notice in the Gazette declaring the end of the pandemic.

The Bill sets out various measures that would be undertaken in order to cushion the citizens against the negative impact of a pandemic on the social and economic activities. It seeks to compel various players at the National and County levels of government to take measures including
economic or tax reprieves, provision of basic goods and services and interventions targeting vulnerable groups and those who may lose their income or whose businesses may be negatively affected in order to mitigate against the adverse impact of the pandemic.

**Statement on the delegation of legislative powers and limitation of fundamental rights and freedoms**

The Bill delegates power to various Cabinet Secretaries. The Bill does not limit any fundamental rights and freedoms.

**Statement that the Bill concerns county governments**

The Bill sets out a framework for the coordinated implementation of various activities by County Governments in collaboration with the National Government in order to prevent and contain the spread of a pandemic. Some of the activities anticipated to be undertaken, including provision of water, sanitation and health services fall within the ambit of County Governments under Part 2 of the Fourth Schedule to the Constitution. Therefore, the Bill concerns county governments in terms of Article 110 (1) (a) of the Constitution.

**Statement that the Bill is a money Bill within the meaning of Article 114 of the Constitution**

The primary purpose of the Pandemic Response Management Bill, 2020 is to establish a legal framework for a coordinated response and for management of activities during a pandemic. As such, the Bill is not a “money Bill” within the meaning of Article 114(1) as read together with Article 114(3).

Dated the 14th April, 2020.
