MEMORANDUM OF OBJECTS AND REASONS

Statement of the Objects and Reasons for the Bill

The principal object of this Bill is to repeal the Geologists Registration Act, 1993 in order to provide a framework to regulate the profession of geology in the country. Inadequacies in the operationalization of the practice of geology in Kenya through the outdated Geologists Registration Act, 1993 is what has necessitated the enactment of this Bill. The Bill is therefore an intervention that is way overdue as a measure to improve the practice of geology.

Currently, the profession of geology contributes significantly to the implementation of specific government policies on natural resources and environmental conservation and to a larger extent climate change. The enactment of this Bill will therefore ensure the effective regulation of the geology profession.

Statement on the delegation of legislative powers and limitation of fundamental rights and freedoms

Clause 67 of the Bill delegates legislative powers to the Cabinet Secretary for the purpose of giving effect to the provisions of the Act. The Bill does not limit fundamental rights and freedoms.

Statement on how the Bill concerns county governments

The practise of geology is widely practised in Kenya through the different public and private institutions. The Bill therefore affects the powers and functions of the county government and it is therefore a Bill that concerns counties in terms of Article 110(1)(a) of the Constitution.

Statement that the Bill is not a money Bill, within the meaning of Article 114 of the Constitution

This Bill is not a money Bill within the meaning of Article 114 of the Constitution.

Dated the 31st August, 2020.

PAUL GITHIOMI MWANGI,
Chairperson, Committee on Land, Environment and Natural Resources.
