MEMORANDUM OF OBJECTS AND REASONS

Statement of the objects and reasons for the Bill

The principal object of this Bill is to amend the Mining Act No. 12 of 2016 in order to provide for separate implementation of the three key functions in the Act: policy formulation, administrative and dispute resolution functions.

The Act as currently is, converges: policy formulation and implementation, day-to-day administration of the Act including obligations owed to the mineral rights holders and dispute resolution at one point. These presents implementation challenges and regulatory uncertainty in the mining sector. Additionally, the Act limits the role of the Mineral Rights Board to only advisory.

The Bill therefore proposes to first, elevate the role of the Cabinet Secretary to provision of policy direction in the sector and prescribing various regulations that are required in the proper implementation of the Act. Secondly, it proposes to establish the Mining Regulatory Authority whose sole mandate is to administer the Act by providing the day-to-day regulatory role in the mining sector by ensuring the mineral rights holders comply with the provisions of the Act and lastly, it proposes to establish the Mining Rights Tribunal whose mandate shall be to resolve disputes relating to mineral rights.

Statement on the delegation of legislative power and limitation of fundamental rights and freedoms

The Bill does not limit any fundamental rights or freedom.

Statement on whether the Bill concerns county government

The Bill does concern County Governments in terms of Article 109(3) of the Constitution and it does affect the functions and powers of County Governments recognized in the Fourth Schedule to the Constitution.

Statement as to whether the Bill is a money Bill within the meaning of Article 114 of the Constitution

The enactment of this Bill shall occasion additional expenditure of public funds.

Dated the 22nd August, 2023.
