MEMORANDUM OF OBJECTS AND REASONS

The principal object of this Bill is to establish the Nuts and Oil Crops Development Board with the aim of saving the nuts and oil crops industry by revamping the policy and institutional framework within which the industry operates. The nuts and oil crops industry is a significant agricultural industry in Kenya.

There is therefore need for a strong and robust policy and institutional foundation to support and guide the multitude of activities, operations, and interactions within the industry so that the growth of the industry results in a strengthened agricultural economy for the country.

Regulatory challenges, national and international economic realities, and scientific reliability are some of the pressing concerns that need to be addressed by the institution responsible for the nuts and oil crops industry.

The Bill proposes to revamp the nuts and oil crops sector in order to make it a profitable, sustainable and development-oriented activity. It proposes to provide an avenue for appreciating the medicinal, aesthetic, touristic and artistic value of various nuts and oil crops by encouraging value addition in the processing of nuts and its products. The Bill therefore establishes the Nuts and Oil Crops Development Board. It further provides for research and development to cultivate a culture of scientific excellence and professionalism in nuts and oil crops farming and industrial development.

Part I (clauses 1–3) contains preliminary matters.

This part contains the short title, interpretation of terms, and the object of the Act.

Part II (clauses 4–20) provides for the establishment, functions and powers of the Nuts and Oil Crops Development Board. It further provides for the composition and qualifications for appointment of the members of the Nuts and Oil Crops Development Board. In addition, it provides for the office of the chief executive officer of the Board and the secretariat.
